

Land Ownership and Farm Management in Ecuador: Egalitarian Family Farming Systems and Gendered Constraints

Carmen Diana Deere
Jennifer Twyman

Paper presented at the World Bank Conference on Land and
Poverty, Washington, D.C., April 23-26, 2012

The Gender Asset Gap Project is a joint initiative of an international research team that was formed in 2009 with four objectives: 1) to collect individual-level asset data from three different countries (Ecuador, Ghana and India) in order to demonstrate the importance and feasibility of collecting data on women's access to and ownership of property; 2) to identify the minimal set of questions on individual level asset ownership that are needed in multi-purpose household surveys to calculate the gender asset and wealth gaps; 3) to develop various measures of gender asset and wealth gaps that can be used by national governments to track progress toward Millennium Development Goal 3 on gender equality and women's empowerment; and 4) to identify the critical enabling or constraining social, economic, and institutional factors affecting women's asset ownership in order to help policymakers and others to improve women's claims to productive assets.

The project is housed at the Centre of Public Policy (CPP) at the Indian Institute of Management Bangalore (IIMB). The project team leaders are Hema Swaminathan, IIMB; Abena D. Oduro, University of Ghana; Carmen Diana Deere, University of Florida; Cheryl Doss, Yale University; and Caren Grown, American University. FLACSO-Ecuador hosted the field work in Ecuador.

The Gender Asset Gap Project Working Papers present preliminary results and have not been formally peer reviewed. They are circulated in order to stimulate discussion and critical comment. The authors hold the copyrights to the contents of the papers and any opinions expressed are solely theirs.
